

REISSUE APPLICATION DECLARATION AND POWER OF ATTORNEY BY THE INVENTOR

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 5,829,516, granted November 03, 1998, and for which a reissue patent is sought on the invention entitled

LIQUID COOLED HEAT SINK FOR COOLING ELECTRONIC COMPONENTS

the specification of which was filed on November 03, 2000 as reissue application number No. 09/706,295.

I hereby state that I reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to the patentability of this application in accordance with Title 37, Code of Federal Regulations, Section 1.56(a).

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply)

- ☐ by reason of a defective specification or drawing.
- ☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.
- ☐ by reason of other errors.

At least one error upon which reissue is based is described as follows:

The relative dimensions of the fluid conduit and the channel in which the conduit is disposed do not have to be such that a "friction fit" is formed therebetween, as is required in claim 1 as issued. Accordingly, the applicant claimed less than he had a right to claim by unnecessarily including the structural element of a "friction fit" in claim 1. Claim 10, which does not include the "friction fit" element, has been added by this reissue application.

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant.

As a named inventor, I hereby appoint the following attorneys and/or agents to prosecute this application and to transact all business in the Patent and Trademark Office connected therewith:
